## THE LONDON BOMBINGS: AN INDEPENDENT INQUIRY

Gerald Duckworth & Co Ltd. Paperback. Book Condition: new. BRAND NEW, The London Bombings: An Independent Inquiry, Nafeez Mosaddeq Ahmed, At first, the police were sure that the bombers used weapons-grade plastic explosives and sophisticated timers. Two weeks later, they changed their minds - the bombs were home-made and were detonated manually. Since then the official account has changed repeatedly and remains riddled with anomalies and confusion. The government is resisting calls for a full inquiry and instead intends to present a 'narrative' written by a civil servant that will stand as the definitive account of what took place. As Mosaddeq demonstrates in this exhaustive investigation, such an approach cannot hope to provide the public with an adequate explanation of what took place. He further shows how the attacks can only be fully understood in the light of extensive co-operation between the Islamist extremists and Western Intelligence in Central Asia, and U.S. - U.K. state interests. The London bombings, much like the attacks on New York in 2001, were a widely predicted consequence of the West's global strategy. If we do face a future of terrorism we should at least understand the extent to which our governments have accepted this as the price of business as usual.
