SURE POP AND THE SAFETY SCOUTS (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Sure Pop and the Safety Scouts Americans are realizing the need for preventing accidents. The general conservation and efficiency movements and the Workmen s Compensation Laws first directed the attention of employers to the needless waste of human life. The discovery that by the safeguarding of machinery and the education of workmen ninety per cent of the industrial accidents could be prevented, has proved the value of educational methods in Public Safety work, and the Safety activities of public officials, trade organizations, public schools, churches, and other agencies have been directed toward the prevention of accidents on the street, in public places, and in homes. Every phase of human life is affected by accidents, and their elimination means saving human life and the avoidance of destitution and misery. The National Safety Council realizes the importance of educating school children in the principles of Safety; for they will be the future industrial workers and the representatives of public opinion; their interest must be aroused to practice and preach Safety First everywhere. Children can be taught to become alert to their own safety, and can influence their parents to a deeper realization of their responsibilities. The National Safety Council has directed the preparation of this book and hopes that through its pages children will be brought to realize the manliness of caution, the importance of courtesy and consideration; that, in short, the Safety way is simply the right way of doing things; and that the efficiency, comfort, and happiness of many individuals will be increased by the practicing day in and day out of Safety First.
