Taylor Francis Inc, United States, 2009. Hardback. Book Condition: New. 2nd Revised edition. 258 x 180 mm. Language: English . Brand New Book. The first edition of *Forensic Entomology: The Utility of Arthropods in Legal Investigations* broke ground on all levels, from the caliber of information provided to the inclusion of copious color photographs. With over 100 additional color photographs, an expanded reference appendix, and updated information, the second edition has raised the bar for resources in this field, elucidating the basics on insects of forensic importance. New in the Second Edition: * A chapter on insect identification that presents dichotomous keys * Updates on DNA molecular techniques and genetic markers * Coverage of new standardization in forensic entomological analysis * Chapters on climatology and thermoregulation in insects *100 new color photographs, making available a total of 650 color photographs Goes Beyond Dramatics to the Nitty Gritty of Real Practice While many books, movies, and television shows have made forensic entomology popular, this book makes it real. Going beyond dramatics to the nitty gritty of actual practice, it covers what to search for when recovering entomological evidence, how to handle items found at the crime scene, and how to use entomological knowledge in legal investigations.
